

## Equipping Africans to reach Africans with the Gospel of Christ – March 2020

### Dear ministry partners,

Ever since she was 11 years old, Holly sensed a calling from God into missions. Throughout her life, she has actively served God in a variety of ways, but certainly one of her passions and giftings has been in mission work. Since moving back to America from Tanzania, while dealing with her and Alyssa's health issues, she has continued serving God by working with African women and pastors' wives, mobilizing prayer initiatives, assisting with travel details, trainings and other admin duties, communicating with supporters, etc.

We are excited to share with you a recent development within our mission, EFCA/ReachGlobal. Spouses of full-time

missionaries are now allowed to collect a salary commensurate with the mission work they do. This is a huge **answer to prayer** for us, since over the past eight years, due to Holly's and Alyssa's medical issues and severe dietary requirements, we have been stretched very tight in our personal finances. God has always been faithful to provide, but Holly collecting a partial salary will greatly bless us and help alleviate this pressure. She is excited to move into this new capacity and devote more time to mission work now that the boys are away at school.

In order for us to receive this partial salary for Holly, we need to increase our support level by an additional \$1500/month. **Would you be willing to prayerfully consider joining us by contributing monthly toward this goal?** Or perhaps you are able to increase your present giving to help toward this goal? Your partnership is significant, highly needed and a practical way **you can help Holly** and our family, and we deeply appreciate your consideration.
