

2020 Annual Ministry Report for Holly Belz

Your Ministry:

My ministry is to serve God and bring Him glory through the abilities and opportunities He has given to me. Specifically, what that has looked like this year is:

- Work with American churches to establish prayer connections with global trainers
- Strategically organize prayer groups to pray for Eric's Pathways trainings
- Complete a 4-week course through ReachGlobal on developing partnerships between American churches and global churches
- Accompany Eric on US trips to supporting churches and Pathway trainings
- Assist with many tasks like partnership development, trip planning, and communication with global partners
- Assist in administrative details and pray together for the many aspects of this ministry.

Strategic Value:

I would say that my value is in helping the ministry to run more smoothly and be more effective. Eric has a lot on his plate and as his wife and ministry partner, I am able to help, encourage and support him and the ministry.

Motivation:

To build God's kingdom through encouraging pastors globally with Bible training and to encourage and motivate the American church in their passion for missions.

Successes and Challenges:

A huge blessing this year has been improvement in my health which has allowed me to engage in more ministry.

A challenge has been the COVID restrictions which has put a halt on international travel.

Future:

I hope to implement a partnership between our sending church and one or more of the groups that Eric trains in Africa. It would be focused on prayer and finding ways to encourage and build up the African trainees and their wives, and also build a stronger passion for missions in our fellowship. This could be a prototype for other similar partnerships.

Prayer Requests:

That the Lord would direct me in how I can best serve Him through this ministry.
