

Equipping pastors in Africa to study, understand, obey, and teach God's Word

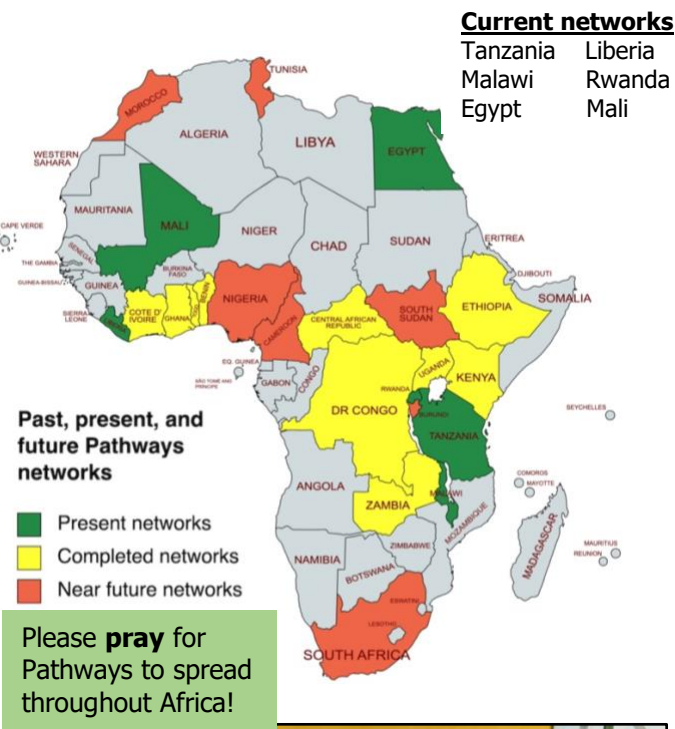

February 2024

Dear ministry partners,

A few weeks ago, Pastor **Emmanuel in Rwanda** shared these inspiring comments with me:

"Before Pathways, I would use verses from all over the Bible and I used so many emotions, because I had no line I followed. But now that I have studied Pathways, I learned to stay in one passage and preach what the passage says with the emotions from the passage rather than my own ideas and emotions. Pathways has helped me, and it is growing the church. I also have a team of other pastors I am training to be grounded in Scripture." **Click on picture above** to watch his brief video.
